

## FABRIC

PolyTex is a lightweight, non-porous woven and coated polyethylene material and is the most economical DuctSox fabric.

- Commonly used alternative to exposed single wall duct/diffusers
- No air is able to pass through the fabric weave
- Airflow is delivered through orifices and various other venting options to achieve desired airflow
- NOTE: PolyTex must be cleaned manually (not machine washable)

## SPECIFICATIONS

<b>Weave:</b>	12 x 9 tapes/inch, HDPE
<b>Weight:</b>	5.5 oz/yd <sup>2</sup> (186g/m <sup>2</sup> )
<b>Porosity:</b>	None
<b>Codes:</b>	This product meets the Surface Burning (25 flame/50 smoke), Low Temperature, High Temperature, Pressure, Mold Growth & Humidity, and Erosion requirements of UL 2518 with the High Temperature Test limited to 160°F (71°C).
<b>Color:</b>	Clear
